This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

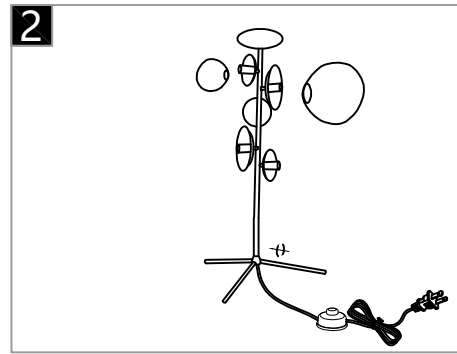

Product style diagram

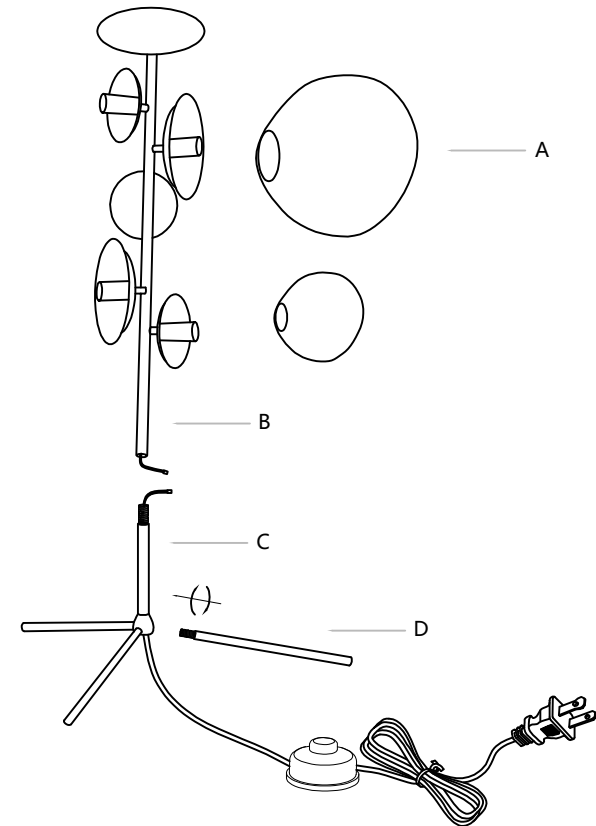

Steps of installation

Install the lamp body stand, then connect the power cords together, and finally fix the lamp body connecting rod to the lamp body.

Then install the light source, and then install the lampshade.

First, install the tripod (D) onto the connecting rod (C). Then, insert the wires on the connecting rod (C) into the lamp body rod (B). Secure them together. Next, install the light source, and then install the lampshade (A).
