

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

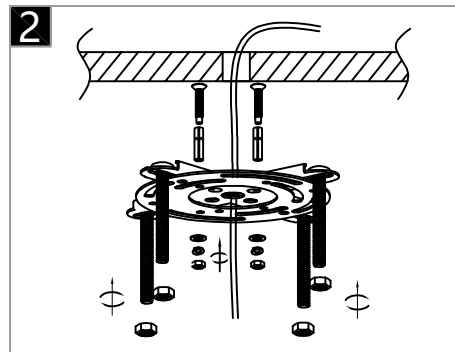

Steps of installation

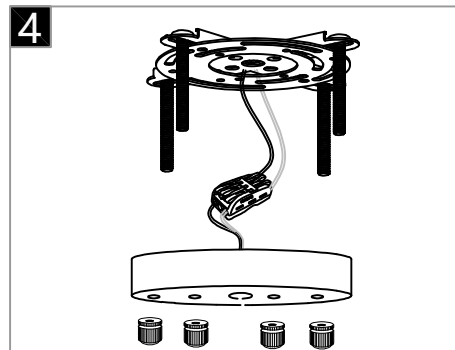

Install the crystal onto the patch, and then attach it to the lamp stand in the manner of two tall and two short pieces.

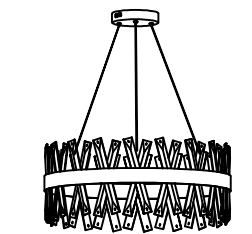

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

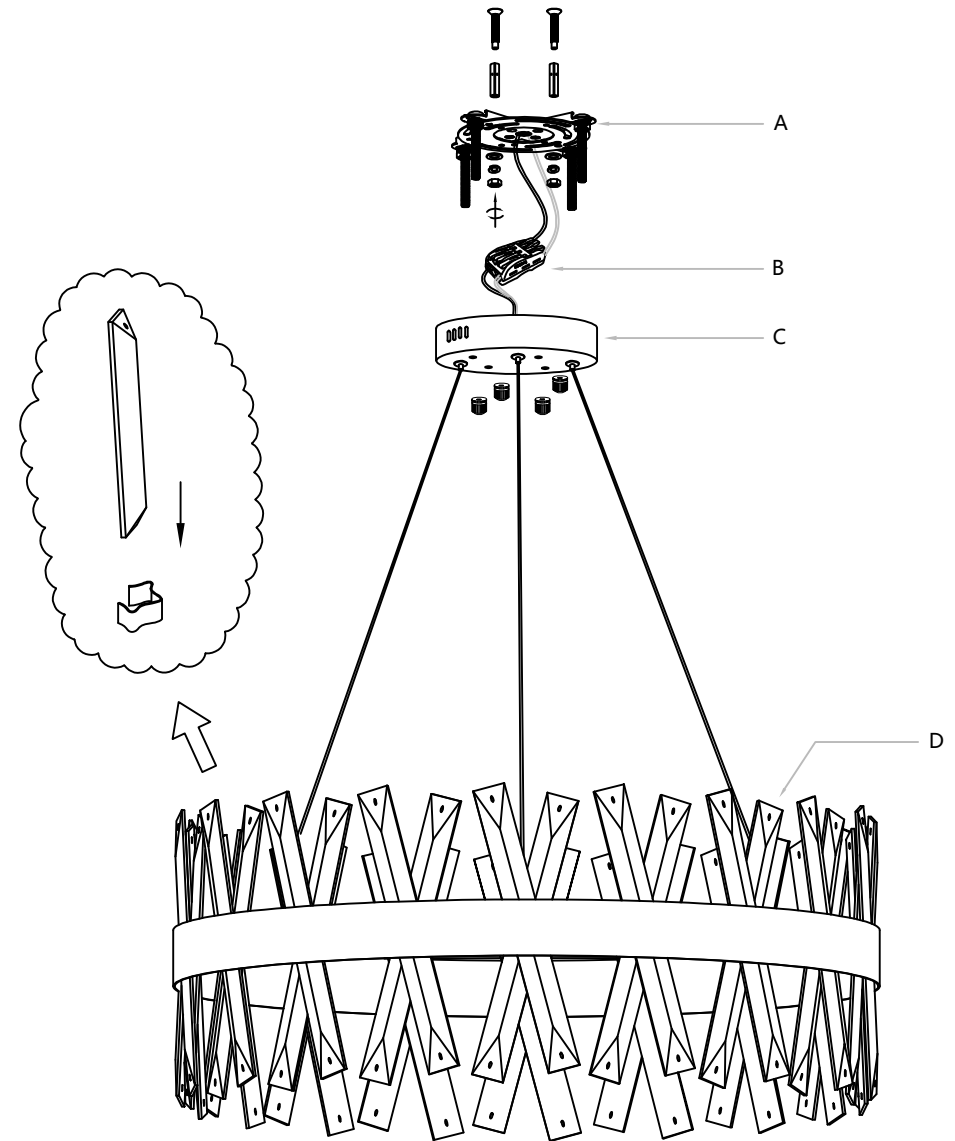

First, fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

Align the top cover hole position on the luminaire with the screws on the mounting plate and then secure from the bottom using the nut.

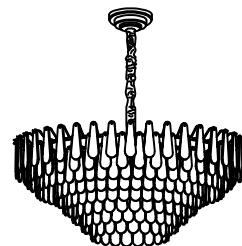

Product style diagram

Install the crystal sheet (D) onto the patch, and then attach it to the lamp frame in a two-high and two-low configuration.. Fix the mounting plate (A) to the ceiling. Next, connect the wires reserved for the top cover (C) to the wires on the ceiling, and then connect them to the terminals (B). Then, align the holes on the top cover (C) with the holes on the mounting plate (A), and tighten the screws.

Steps of installation

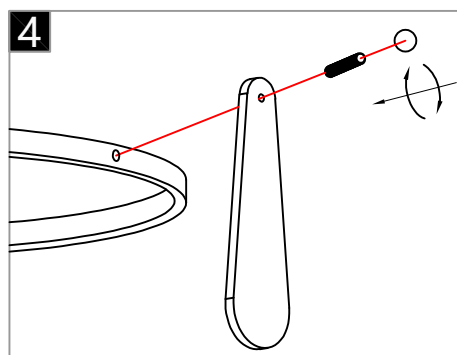

Install the rings onto the sides of the square tubes (35cm), (30cm), (25cm), (20cm), (15cm), (10cm) respectively. Then, attach the assembly to the square tube of the lamp body .

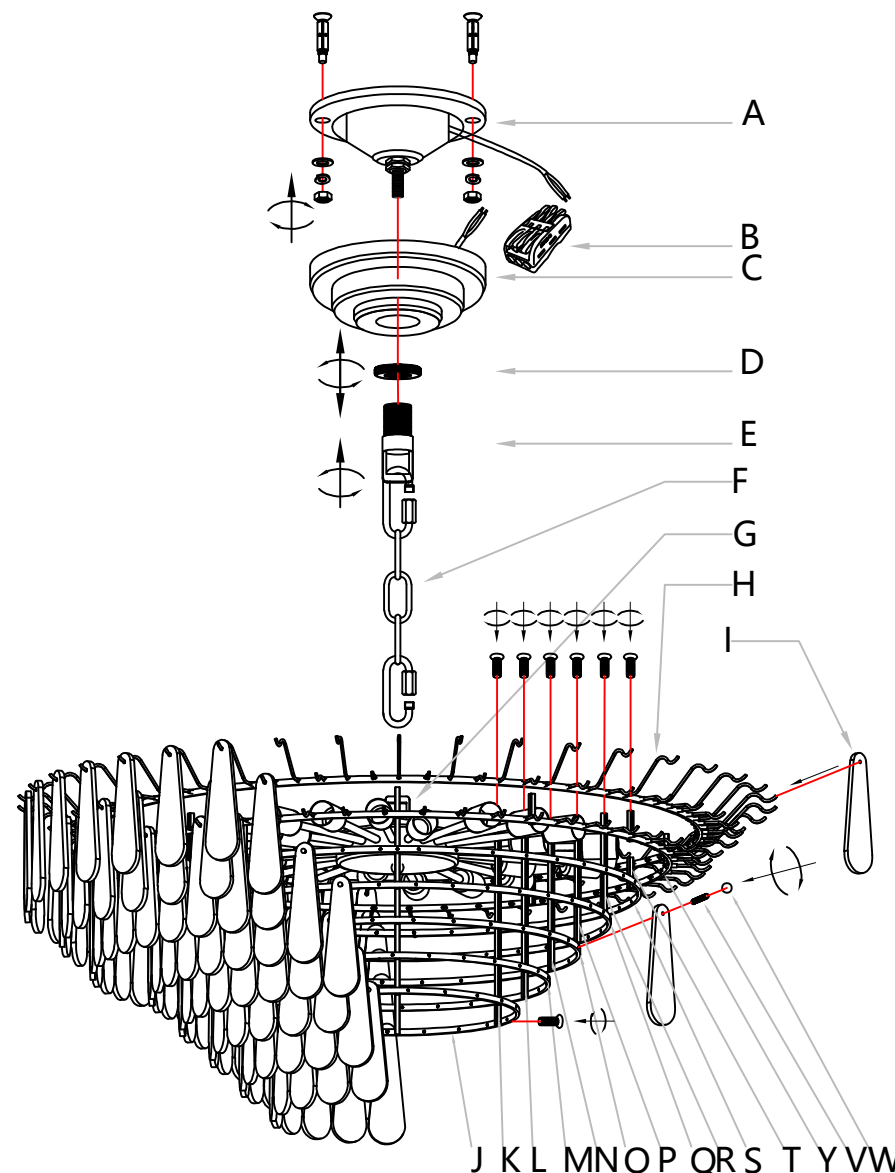

Install the mounting plate onto the ceiling, and let the wires from the ceiling exit through the holes on the conical side of the mounting plate .

Pass the wire through the chain , use the quick connector , and connect the wire to the wire on the ceiling.

Combine the threaded rod with the spherical nut , then align the hole of the lampshade with the screw hole of the ring, tighten the assembly. Then align the hole of the lampshade with the hook and insert it.

First, install the rings (J), (O), (Q), (S), (Y) onto the sides of the square tubes (K-35cm), (L-30cm), (N-25cm), (P-20cm), (R-15cm), (T-10cm) respectively. Then, attach the assembly to the square tube of the lamp body (H).

Next, install the mounting plate (A) onto the ceiling, and let the wires from the ceiling exit through the holes on the conical side of the mounting plate (A).

Then, pass the wire through the chain (F), use the quick connector (B), and connect the wire to the wire on the ceiling.

Next, install the chain (F) onto the ring (G), then cover and install the cover plate (A) with the top cover (C), align the nut (E) with the threaded rod of the installation plate (A), tighten the nut (E), and lock the flat nut (D).

Next, combine the threaded rod (V) with the spherical nut (W), then align the hole of the lampshade (I) with the screw hole of the ring, tighten the assembly. Then align the hole of the lampshade (I) with the hook and insert it.
