

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

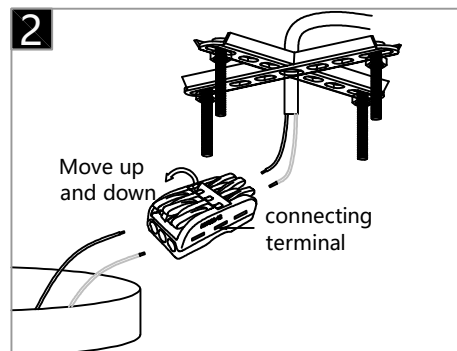

Product style diagram

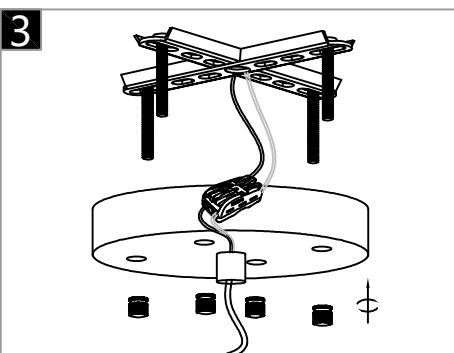

Steps of installation

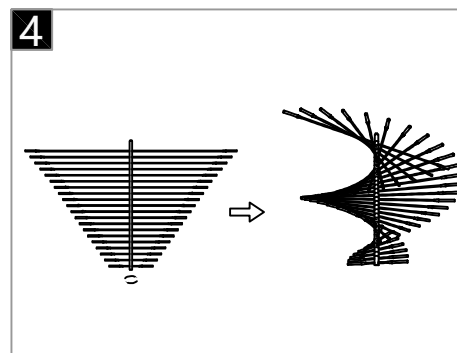

First, fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

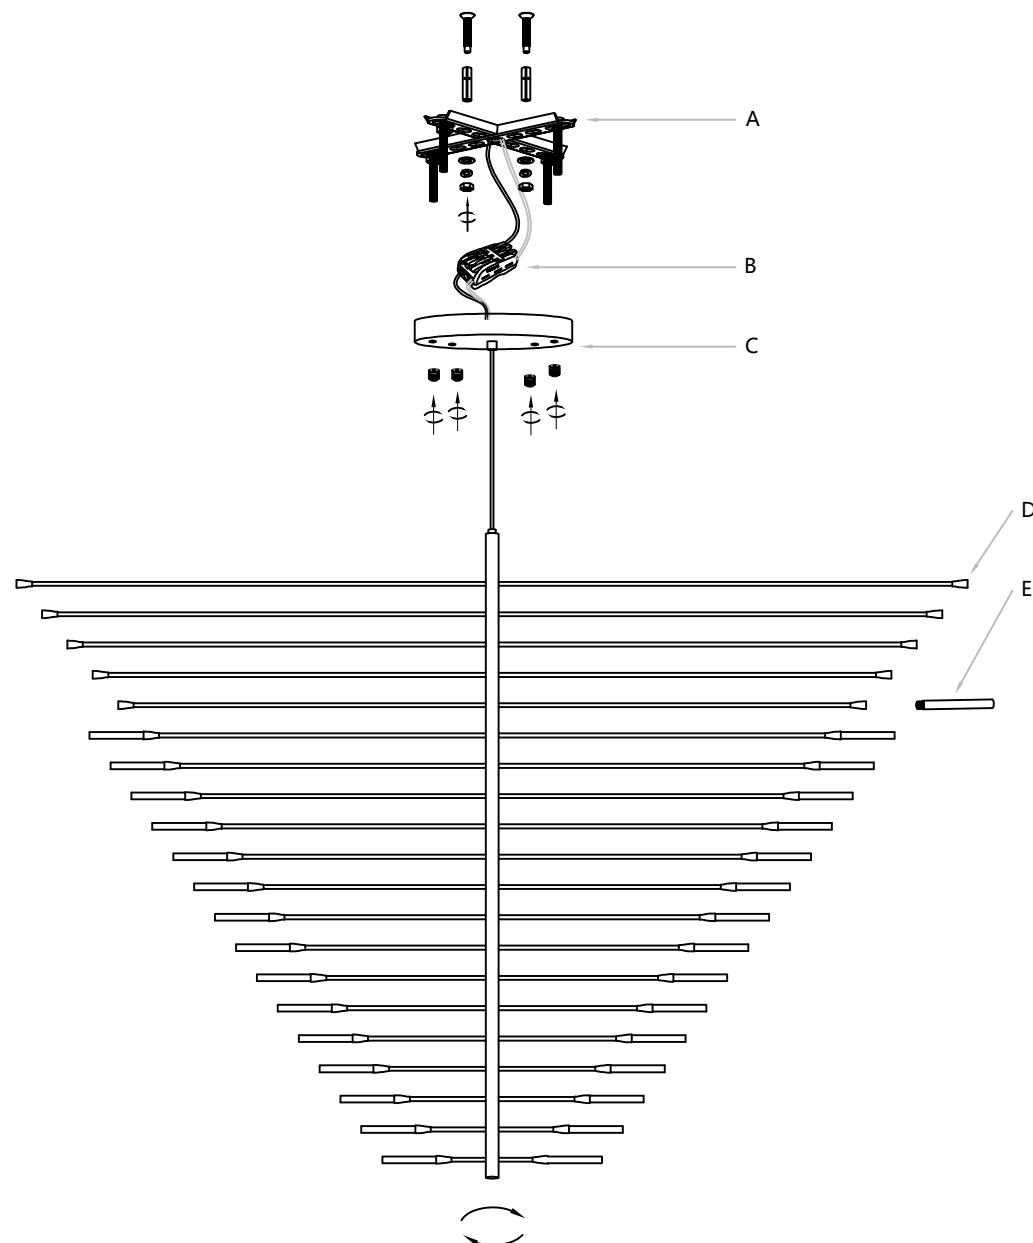

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

Align the top cover hole position on the luminaire with the screws on the mounting plate and then secure from the bottom using the nut.

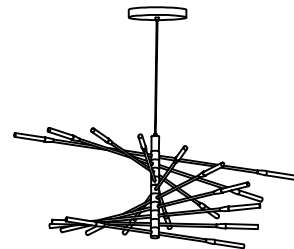

Adjust the angle of the lamp body bracket.

First, fix the installation plate (A) to the ceiling using iron nails. Then, connect the wires of the top cover (C) and the wires on the ceiling with the terminal block (B). Next, align the holes of the top cover (C) with the threaded rod of the installation plate (A), and tighten the nut. Then, install the rod (E) onto the lamp body (D), and rotate the lamp body to achieve the effect shown in the picture.

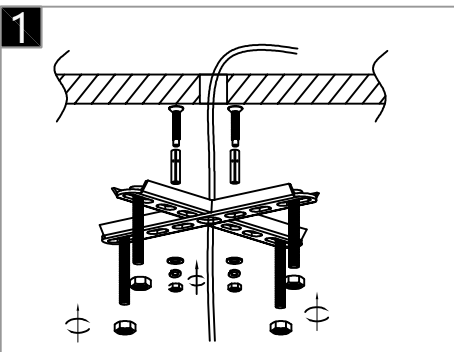

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.
